# Supporting Recovery

When a friend or family member develops a mental health condition, it's important to know that you're not alone. Family members and caregivers often play a large role in helping and supporting the millions of people in the U.S. who experience mental health conditions each year.

## What can family and friends do?

- Learn as much as possible about mental health.
- Show interest in the persons treatment plan and encourage the person to follow it.
- Listen carefully. Simply listening is one of the best ways to show your support.
- Resume "normal" activities and routines. Spend time together on activities unconnected to their illness.
- Don't push too hard. It takes time to heal and ease back into routine activities.
- Express your support out loud. State that you want to help and they are not alone. 1 in 5 US adults experience mental illness each year.
- Don't give up on the person. A person with a mental health condition benefits from having a social support. A good life is possible. Source: NAMI

## Why you need dental insurance in retirement.

### Medicare doesn't pay for dental care.<sup>1</sup>

As good as Medicare is, it was never meant to cover everything. If you want protection, you need to purchase individual insurance.

### Early detection can prevent small problems from becoming expensive ones.

The best way to avoid large dental bills is preventive care. Experts recommend checkups twice a year.

### Previous dental work can wear out.

Your odds of having a dental problem only go up as you age.<sup>2</sup>

### Treatment is expensive — especially the services people over 50 often need.

Unexpected bills, like \$190 for a filling, or \$1,213 for a crown<sup>3</sup> can be a real burden, especially if you're on a fixed income.

### When you're comparing plans ...

- ▶ Look for coverage that helps pay for major services.
- ▶ Look for coverage with no deductibles.
- ▶ Shop for coverage with no annual maximum on cash benefits.

**Simply put – without dental insurance, there may be an important gap in your healthcare coverage.**
