**THERE'S A STORY**  
Let's talk about it

**Tuscola Behavioral Health Systems**

*Feelings of sadness are common human emotions. When more severe symptoms like lack of energy and hopelessness develop in multiple areas of a person's life along with persistent sadness over at least two weeks, they may be experiencing a condition known as major depressive disorder (MDD).*

*Depression does not have a single cause. Symptoms can begin to appear following a life crisis, physical illness or something else - but they can also occur for no reason at all. (Source: NAMI)*

*If you think someone is showing signs of depression, talk to them. It can make a difference!*

*Offering your support sends a powerful message that they are not alone. No one should feel alone in their mental health journey or without resources and support.*
