MAY

MENTAL HEALTH

AWARENESS MONTH

Mental health awareness plays a crucial role in reducing stigma, encouraging early intervention and fostering empathy and understanding. Normalizing conversations around mental health nurtures a more compassionate society where individuals feel empowered to seek help, leading to improved mental wellbeing.

The truth is:

- Around 1 in 5 adults experienced mental illness in the past year.
- 1 in 20 adults experienced serious mental illness in the past year.
- 1 in 5 youth have a mental health condition, with anxiety being the most common condition.
- Globally, about 35% of mental illness emerges by age 14, with nearly 63% appearing by age 25.
- In 2023, 20% of high school students in the U.S. considered suicide. (source thenationalcouncil.org)
