Why you need dental insurance in retirement.

Medicare doesn't pay for dental care.¹

As good as Medicare is, it was never meant to cover everything. If you want protection, you need to purchase individual insurance.

Early detection can prevent small problems from becoming expensive ones.

The best way to avoid large dental bills is preventive care. Experts recommend checkups twice a year.

Previous dental work can wear out.

Your odds of having a dental problem only go up as you age.²

Treatment is expensive — especially the services people over 50 often need.

Unexpected bills, like \$190 for a filling, or \$1,213 for a crown³ can be a real burden, especially if you're on a fixed income.

When you're comparing plans ...

- ▶ Look for coverage that helps pay for major services.
- ▶ Look for coverage with no deductibles.
- ▶ Shop for coverage with no annual maximum on cash benefits.

Simply put – without dental insurance, there may be an important gap in your healthcare coverage.

TUSCOLA COUNTY FAIR

JULY 20-26, 2025

Fair Hosts New Event For 'Differently Abled'

By **SCOTT BOLSBY** | *Sports Editor*
sports@tcadvertiser.com

CARO — County fairs are welcoming to individuals from all walks of life.

The Tuscola County Fair is making sure those that need something extra to attend events with large crowds, loud noises, or something that carries a hefty price tag have what they need to enjoy the fair this year.

The 144th annual Tuscola County Fair, which begins on July 20 and runs through July 26 in Caro, will feature a new event known as Differently Abled Day.

“The Tuscola Intermediate School District Social Work department, which is what Amanda Bolzman and I are, partnered with the fairboard to get this event going,” Jamie Wallace said.

“Huron and Sanilac county fairs were having one, and I was wondering why we didn’t have it yet.”

Differently Abled Day is scheduled for Wednesday before the fair opens to the public. Organizers expect to welcome close to 300 participants that preregistered for the first-time event.

Wallace noted that the number of families who did preregister exceeded the goal they were hoping to achieve in the first year of the event.

“We have 297 participants this year,” she said. “The end result outweighed the expectations I had when I first presented this to the school and fairboard. I was hoping for around 200 just based on what I was told

about Huron and Sanilac counties’ version of the event.”

The term differently abled features of wide-range of individuals with Wallace mentioning it can feature children that are recognized with Autism Spectrum Disorder, a developmental delay, cognitive impairment, emotional impairment, or disorders along them lines

“There are many different categories that are included for differently abled day,” she said.

The Huron County Fair started its’ version of differently abled day in 2014 with Sanilac County hosting its inaugural event in 2024.

“We had families that were from Tuscola County traveling to Huron and Sanilac counties to attend this event,” Wallace said. “I just kept wondering ‘why aren’t we doing this?’ Those families should be able to attend their county fair, we want them to be able to be a part of the community.”

The event is open to individuals dealing

with a multitude of situations that prevent them from attending the fair during regular hours.

“It’s going to be a lower sensory event, not as much commotion that is normally at the fair,” Wallace said. “They are going to be able to experience a fair and really just be included into our community, because they deserve that too.”

The day will feature a scaled back version

Fair fun for all: A ride spins during the Tuscola County Fair, which will host its first-ever Differently Abled Day on Tuesday, July 22. The new event aims to create a welcoming, sensory-friendly experience for nearly 300 preregistered participants, offering rides, games, exhibits and a free luncheon for individuals who may face barriers attending during regular hours.

DEPRESSION & ANXIETY

Tuscola Behavioral Health Systems
 www.tbhsonline.com 1.800.462.6814

Depressive disorder, frequently referred as depression, is more than just feeling sad or going through a rough patch. It's a serious mental health condition that requires understanding and medical care. Left untreated, depression can be devastating for those who have it and their families. Fortunately, with early detection, diagnosis and a treatment plan and healthy lifestyle choices, many people can and do get better.

Anxiety disorders are the most common mental health concern in the United States. Over 40 million adults in the U.S. (19.1%) have an anxiety disorder. Meanwhile, approximately 7% of children aged 3-17 experience issues with anxiety each year. Most people develop symptoms before age 21. Source: NAMI
