3 bedroom, 2 bath, 1 story with full unfinished basement

This home has always been admired throughout the community and is now available for sale! The updated open kitchen features custom cabinets and quartz

countertops, flowing effortlessly into a spacious living room and dining area that opens up to the charming covered front porch through French doors. The home has 3 bedrooms and 2 full bathrooms, with the primary bathroom showcasing a tiled walk-in shower and rainfall shower head. The bright foyer, just off the sizable attached garage, also houses a full bathroom. The property includes two attached garages with additional storage space, one of which features a 10' garage door for storing larger items. A private deck at the back of the house provides the perfect spot to entertain in the summer months. This home is the perfect mix of comfort and connivance, being in town allows you to have the local business, schools, and park just minutes away from your doorstep.

## Why you need dental insurance in retirement.

Medicare doesn't pay for dental care.<sup>1</sup> As good as Medicare is, it was never meant to cover everything. If you want protection, you need to purchase individual insurance.

Early detection can prevent small problems from becoming expensive ones. The best way to avoid large dental bills is preventive care. Experts recommend checkups twice a year.

Previous dental work can wear out. Your odds of having a dental problem only go up as you age.<sup>2</sup>

Treatment is expensive — especially the services people over 50 often need. Unexpected bills, like \$190 for a filling, or \$1,213 for a crown<sup>3</sup> can be a real burden, especially if you're on a fixed income.

**When you're comparing plans ...**

- ▶ Look for coverage that helps pay for major services.
- ▶ Look for coverage with no deductibles.
- ▶ Shop for coverage with no annual maximum on cash benefits.

**Simply put – without dental insurance, there may be an important gap in your healthcare coverage.**

**DEPRESSION & ANXIETY**

**Tuscola Behavioral Health Systems**  
 www.tbhsonline.com 1.800.462.6814

Depressive disorder, frequently referred as depression, is more than just feeling sad or going through a rough patch. It's a serious mental health condition that requires understanding and medical care. Left untreated, depression can be devastating for those who have it and their families. Fortunately, with early detection, diagnosis and a treatment plan and healthy lifestyle choices, many people can and do get better.

Anxiety disorders are the most common mental health concern in the United States. Over 40 million adults in the U.S. (19.1%) have an anxiety disorder. Meanwhile, approximately 7% of children aged 3-17 experience issues with anxiety each year. Most people develop symptoms before age 21. Source: NAMI
